JAKWAN AL DIN

MSC CYBERSECURITY STUDENT SEEKING A CYBERSECURITY ROLE

Dublin, Ireland | +353 85 172 7740 | jakwanaldin@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

- MSc Cybersecurity student at the National College of Ireland with 8 months of web and network penetration testing at Arena Web Security, seeking a Cybersecurity role.
- Ran over 20 web and network penetration tests at Arena Web Security with Burp Suite, Nmap, Metasploit and Kali Linux, and scanned targets with Acunetix to rate vulnerabilities by CVSS severity. Documented over 80 vulnerabilities, including 5 critical and 10 high severity.
- Investigates attacks in Splunk and analyses network traffic in Wireshark. Finished 1st in a TryHackMe SOC Simulator scenario after classifying 35 alerts.
- Business Analyst at US-Bangla Airlines (Sep 2025 to Aug 2026): wrote requirements, user stories and acceptance criteria, analysed product data, and built front-end prototypes for a hotel booking app and website.
- Technical skills include Python, PowerShell, Bash, SQL, Splunk SPL, MITRE ATT&CK, OWASP Top 10, CVSS and Microsoft Excel.
- Holds the Google Cybersecurity Professional Certificate. CompTIA Security+, TryHackMe SOC Level 1 and two AWS certifications expected in 2027. BSc in Computer Science & Engineering, IELTS 7.5.
- **Availability:** Currently on a Stamp 2 visa. Eligible for the Critical Skills Permit, and eligible to apply for Stamp 1G in October 2027, which allows unrestricted work for 2 years.

TECHNICAL SKILLS

Cybersecurity: Vulnerability Identification & Assessment, Remediation Reporting & Tracking, Security Awareness Training, Phishing & Social Engineering Assessments, Security Incident Investigation Support, Threat & Risk Documentation, Security Auditing, Endpoint Security, Incident Reporting, Risk Management, Threat Hunting

Networking: TCP/IP, HTTP, DNS, DHCP, Subnetting, Routing, Network Traffic Analysis, VPN

Security Tools: Burp Suite, Metasploit, Nmap, Wireshark, Kali Linux, Acunetix, Nessus, Cisco Packet Tracer

Security Monitoring / SIEM: Splunk SPL, Elastic/Kibana, Sysmon, Windows Event Logs, MITRE ATT&CK Framework, IDS/IPS, SIEM

Frameworks: OWASP Top 10, CVSS, Incident Response Methodology

Programming / Scripting: Python, Java, C++, Bash, PowerShell, SQL, TypeScript, React, Next.js

Business Analysis / Documentation: Requirements Gathering, BRDs, User Stories, Acceptance Criteria, KPI Reporting, Technical Documentation, Stakeholder Communication, Prototype Design

Day-to-day tools: Microsoft Excel, PowerPoint, Figma, Gmail

EDUCATION

MSc Cybersecurity **Sep 2026 – Present**

National College of Ireland (NCI), Dublin, Ireland

- **Modules:** Network Security and Penetration Testing, Security Fundamentals, Cloud Architectures and Security, Business Resilience and Incident Management, Cryptography and Blockchain, AI/ML in Cybersecurity
- NCI 75th Anniversary Scholarship recipient.

BSc (Engineering), Computer Science & Engineering **2020 – 2025**

Ahsanullah University of Science & Technology (AUST), Dhaka, Bangladesh

- 2:1 equivalent
- **Modules:** Cyber Security, Computer Networks, Data Communication, Operating System, Database, Data Analytics

CERTIFICATIONS

- IELTS: overall 7.5 (Listening 9.0)
- Google Cybersecurity Professional Certificate, Coursera, Mar 2026
- TryHackMe SOC Level 1, expected 2027
- CompTIA Security+, expected 2027
- AWS Certified Solutions Architect Associate, expected 2027
- AWS Certified Security Specialty, expected 2027

TRAINING

Trainee Ethical Hacker & Cybersecurity Expert (Practical Training) **Jan 2025 – Aug 2025**

Arena Web Security, Remote (Dhaka)

- Ran over 20 web and network penetration tests with Burp Suite, Nmap, Metasploit and Kali Linux, finding SQL injection, XSS, CSRF, LFI, RCE and web shell uploads.
- Scanned targets with Acunetix and Nessus to detect vulnerabilities and rate them by CVSS severity. Documented over 80 vulnerabilities, including 5 critical and 10 high severity, and wrote prioritised remediation reports for technical teams.
- Captured and analysed network traffic in Wireshark to collect technical evidence for incident investigation.
- Carried out over 10 social engineering assessments (phishing, vishing, pretexting) and gave security awareness briefings.
- Monitored antivirus alerts, configured antivirus solutions, and used PowerShell to automate routine security data checks.

PROFESSIONAL EXPERIENCE

Business Analyst **Sep 2025 – Aug 2026**

US-Bangla Airlines, Product Department, Dhaka, Bangladesh

- Gathered and analysed requirements and turned business needs into product features.
- Worked with stakeholders and technical teams to agree goals and deliverables.
- Wrote user stories, workflows and acceptance criteria for development and testing.
- Analysed data and user feedback to support product planning.
- Monitored product performance and worked on improvements.

Additional work: Prototype Design

- Built front-end prototypes of the user and extranet modules for the hotel booking app and website with Next.js (App Router), TypeScript and React. Mock data was kept in localStorage; there was no backend or database.
- Included a user management module (invite, edit and delete users with role-based access). Designed the admin mapping for the same project.

PROJECTS

- **Home Pentest Lab:** Built a virtual lab for network security and penetration testing, with a Kali Linux attacker VM and a Windows Server 2025 target VM, for the NCI Network Security and Penetration Testing module. Tools: VirtualBox, Kali Linux, Windows Server 2025.
- **SOC Simulator, Phishing Unfolding:** Worked 35 alerts in TryHackMe's SOC Simulator (Phishing Unfolding), separating false positives from a real attack chain that ran from Active Directory reconnaissance to DNS exfiltration. Finished 1st with 1105 points. Tools: SIEM, Sysmon logs.
- **Investigating with Splunk (TryHackMe):** Investigated Windows logs in Splunk with SPL to trace a backdoor account (Event ID 4720) through Sysmon and PowerShell script block logs, and decoded payloads in CyberChef.

HOBBIES

- Cooking
- Archery, NCI Archer Club
- Gaming, NCI Esports and Gaming Society
